

## EAVT-LS Series

### EVOTEK Level Sensor with thermo switch

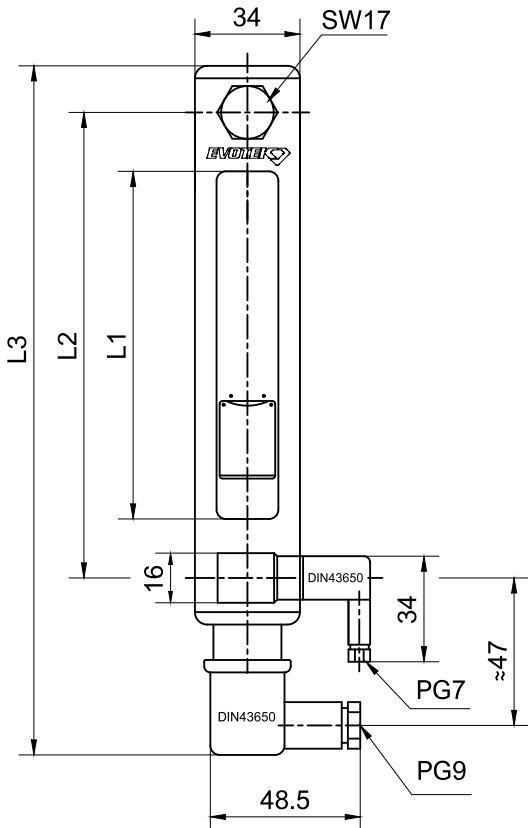

#### Product Description

- Monitor the fluid level via an electrical signal. This switch signal can be used for a warning or to control the level.
- Better visual fluid level monitoring possible with yellow float
- Three nominal temperatures possible: 60 °C, 70 °C and 80 °C.
- to be mounted directly on to the operating fluid tank
- application in Machine tools, system engineering, tanks for hydraulic, lubricating and cutting oils, and gearboxes.

#### Technical Specifications

Application	Level Sensor with thermo switch
Port Sizes:	Mounted using two banjo bolts
Mounting position:	Vertically on the tank wall (connection plug at bottom of the tank)
Notes:	The upper viscosity limit is 2,000 mm <sup>2</sup> /s.
Material	
Housing frame:	Aluminium
Seals:	NBR or FPM
Lens:	Polyamide
Connectors:	Polyamide
Temperature range:	-20°C to 80°C
Instrument plug:	DIN43650A
Degree of protection:	IP65
Switching current:	Level Sensor: 0.5A Thermo switch: 2A
Switching voltage:	Level Sensor: 12 - 50 V AC/DC Thermo switch: 250 VAC
Screw tightening torque:	8 ~ 10 Nm
Nominal pressure:	max. 0.5 bar
Operating fluids:	Mineral oil to DIN 51524 Part 1 and 2, water-oil emulsions and synthetic fluids, such as hydraulic fluids based on phosphate ester. (other fluids on request)

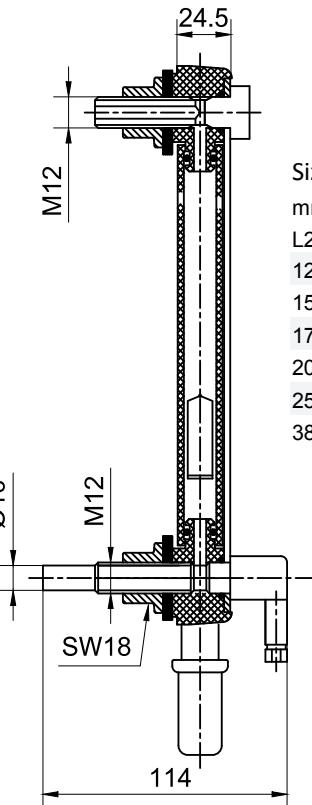

## EAVT-LS Level Sensor with thermo switch

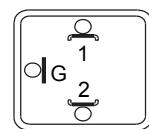

Level Sensor Connection

Connector: DIN43650  
 Wiring: 1-2 (NO&NC)  
 Voltage: 12 - 50 V AC/DC  
 Current: 0.5A

Thermo Switch Connection

Connector: DIN43650  
 Wiring: 1-2 (NO&NC)  
 Voltage: 250 V AC  
 Current: 2A
